DETAILED ACTION

1. Claims 27-28, 34-35 and 40-41 are pending.
2. Amendment filed 11/23/2005 has been received and considered.

Claim Rejections - 35 USC § 101

3. The rejections under 35 U.S.C. 101 have been withdrawn based on the filed amendments.

Claim Rejections - 35 USC § 102

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 27-28, 34-35 and 40-41 are rejected under 35 U.S.C. 102(e) as being anticipated by Girerd et al (US 6131067).

As per claims 27-28, 34-35 and 40-41, Girerd et al discloses moving a part input inputting an output from a device used for detecting information for positioning the part; transmitting to the remote site data and a GPS signal in accordance with the output, wherein the data is used as

Art Unit: 2137

identification in connection with the remote site (see column 2 lines 36-53; column 4 lines 23-64; and column 6 lines 23-48).

Response to Arguments

5. Applicant's arguments filed 11/23/2005 have been fully considered but they are not persuasive. Applicant argues that Girerd et al fails to disclose moving a part and a device used for detecting information for positioning the part to be moved.

Regarding Applicant's argument that Girerd et al fails to disclose moving a part, the cell phone is a moveable part, which transmits a GPS signal to determine the location of the cell phone (i.e. positioning the cell phone).

Regarding Applicant's argument that Girerd et al fails to disclose a device used for detecting information for positioning the part to be moved, this limitation is not recited in the rejected claim(s). Although the claims are interpreted in light of the specification, limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993). Furthermore the Final Rejection dated 03/07/2005 contains rejections of positioning parts to be moved.

In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
